Lake Argyle, known as the ‘Jewel of the Kimberley’, is a stunning man-made lake that provides an array of activities and attractions for visitors to the region. This flourishing eco-system supports over 270 species of birds, 26 species of native fish and an abundance of other fauna such as the Short Eared Rock Wallaby.

For this reason, Lake Argyle is the perfect place to birdwatch and spot wildlife.

Lake Argyle also offers plenty of water activities such as boat cruises, water skiing and canoeing. If you’re a land lover, take the time to explore the region on foot or mountain bike. For a bird’s-eye view, book a scenic flight to see the lake in all its glory.
